Improving stock market prices prediction using Kalman Filter

Mikołaj Warda

October 2, 2025

1 Introduction

This is a simple example document created with LaTeX. It shows text, math, and lists.

2 Math Example

Here's the quadratic formula:

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

3 Lists

An example of an itemized list:

- First item
- Second item
- Third item

And a numbered list:

1. Step one
2. Step two
3. Step three
